## GRADUATION MESSAGE FOR BATCH SY2022-2023

My warmest felicitations to all graduates and completers  
for batch SY 2022-2023!

As this year's graduation and moving-up ceremonies highlight the importance of perseverance, unity, and the power of education in transforming the lives of our children, I foremostly commend the hard work and commitment of teachers and parents who have gone beyond their limit to support students' learning. This school year's success would not be possible without you.

I equally applaud the learners for your adaptability and flexibility despite the hurdles you must overcome. Your ability to adjust and thrive in a challenging and unfamiliar environment give meaning to this year's theme, ***"K to 12 Graduates: Molded through a Resilient Educational Foundation."***

As another page of your life story opens, remember to treasure the relationships you have built along the way and maintain those connections as you progress on life's journey. They are your beacon towards greatness.

Above all, may you be challenged to make a difference as you leave a positive impact wherever you go. Always remember that success is not only measured by material wealth but also by your acts that positively influence the community and the people around you.

My salute to the parents, teachers, and school administrators. You have not only significantly cultivated our children's academic abilities but also honed them to become responsible and accountable citizens, who can contribute towards the betterment of our society.

Congratulations once again on your well-deserved success and I wish you good luck as you reach greater heights!

**ESTELA P. LEON-CARIÑO EdD, CESO III**  
Director IV/Regional Director
