GRADUATION AND MOVING-UP MESSAGE

I congratulate all the graduates and completers of SY 2020-2021!

Your graduation or moving up is a monumental milestone and accomplishment not only for you, but for your family and the people behind your success.

Years of dedication, perseverance, and sacrifice have brought you to this significant moment and have prepared you to survive in the “real world.”

The COVID-19 pandemic has greatly affected the education system, but the various learning platforms and innovative strategies employed have made education possible even during emergencies.

The challenges have not held you back, rather, these helped propel you forward. Indeed, your endurance during these trying times was exceedingly demonstrated in this year’s theme, **“Kalidad ng Edukasyon Lalong Patatagin sa Gitna ng Pandemya.”**

The diploma or the certificate you are receiving underscores a turning point in your life towards greater horizons. This achievement is the fully paid insurance you get after years of hard work and will serve as your passport to promising opportunities. Thus, use it well to strive above every occasion.

Congratulations as well to the parents, teachers, and school officials! You have done a meritorious job in motivating and molding our children to become responsible members of our society.

To the schools’ staff and management, more power as you continue to be our partners in providing quality education our children truly deserve!

Once again, I wish all the graduates and completers the very best in your endeavors!

God bless us all!

ESTELITA L. CARIÑO EdD, CESO III
Regional Director
