Dear ESTELA L.,

With the rapid growth of urbanization, cities around the world are facing a multitude of challenges. From traffic congestion to air pollution and limited resources, urban planners are seeking innovative solutions to create more livable, sustainable, and efficient cities. Smart Cities leverage the latest advancements in technology to address these challenges and create a better quality of life for residents.

Join us on 24 May at InfoComm Asia 2023 to learn first-hand from *Chaiv Rungsiyakull* from Chiang Mai University how the university's Smart Campus Management Center harnesses the latest technology to facilitate better quality and higher sustainability of life for all residents on its campuses.
